ED 426 999 SP 038 299

AUTHOR	Benson, Marty, Ed.
TITLE	NCAA Divisions II and III Graduation-Rates Report, 1998.
INSTITUTION	National Collegiate Athletic Association, Overland Park, KS.
PUB DATE	1998-12-00
NOTE	699p.
AVAILABLE FROM	National Collegiate Athletic Association, P.O. Box 781046, Indianapolis, IN 46278-8046; Tel: 888-388-9748 (Toll-Free).
PUB TYPE	Numerical/Quantitative Data (110) -- Reports - Descriptive (141)
EDRS PRICE	MF04/PC28 Plus Postage.
DESCRIPTORS	*Athletes; Athletics; *College Athletics; College Graduates; College Students; *Graduation; Higher Education; Student Financial Aid; Tables (Data)
IDENTIFIERS	*Graduation Rates; National Collegiate Athletic Association

ABSTRACT

Legislation mandating public disclosure of graduation rates was adopted by the National Collegiate Athletic Association in 1990. This publication is a collection of the information submitted by each Division II and III institution through the completion of graduation-rates surveys. Each individual report provides information about two groups of students at the college or university: (1) all undergraduate students who were enrolled full-time in a program of studies for a degree; and (2) student athletes who received athletics aid in one of eight sports categories from the college or university upon initial enrollment. For each of the sports categories, there is information on students' racial or ethnic groups. Each report gives graduation information about students and student athletes entering as full-time students for the first time in the fall of 1991. A graduation rate is based on a comparison of the number of students who entered a college or university as first-time full-time students in a given year and the number of those who graduated within 6 years. The section at the top of each graduation-rates report provides freshman-cohort graduation rates for all students and for student athletes who received athletics aid at the college or university. Note: Readers who have questions about the material in this book or the methodology used should call the NCAA Research Department at the number listed above for the NCAA national office rather than contacting the editor.

Distributed to CEOs of all NCAA institutions, Divisions II and III conference commissioners, high-school guidance counselors and junior college athletics departments.

NCAA, NCAA logo and NATIONAL COLLEGIATE ATHLETIC ASSOCIATION are registered marks of the Association and use in any manner is prohibited unless prior approval is obtained from the Association.

Introduction

Legislation mandating public disclosure of graduation rates was adopted by the Association at the 1990 NCAA Convention. The legislation, sponsored by the NCAA Presidents Commission and Council, stipulates that the Association's national office publish annually graduation-rates data on an institution-specific basis. Member institutions that award athletics aid are required to distribute the institution-specific graduation-rates report to prospective student-athletes and to their parents, pursuant to NCAA Bylaw 13.3.1.2.

This publication is a collection of the information submitted by each Division II and III institution through the completion of the IPEDS graduation-rates survey. This is the first year that the NCAA worked in cooperation with the federal government to collect data and the first year that the data were compiled using government-supplied forms. Upon receipt in the national office, the data were reviewed for accuracy and preliminary reports were submitted to the chief executive officer for verification.

Institution-specific reports for NCAA Divisions II and III institutions are included in this publication and appear in alphabetical order by division. In addition to the institution-specific reports, summaries of the data also are provided in this publication.

The data contained within each institution's report are similar to data that were reported to the Department of Education, pursuant to the Federal Student Right-to-Know and Campus Security Act.

The legislation mandated that student-athlete information be collected only on those who receive athletically related financial aid. Since many institutions in Divisions II and III do not offer such aid, the student-athlete section of the report will not contain any data, and will be so noted at the top of the report.

As you review the data, it is our hope that the 1998 Official NCAA Divisions II and III Graduation-Rates Report will provide useful information about the graduation rates and enrollment at NCAA Divisions II and III institutions.

Graduation-Rates Report Information

This information and the following graduation-rates reports have been prepared by the NCAA, based on data provided by the institution, in compliance with NCAA Bylaw 30.1 and the Federal Student Right-to-Know and Campus Security Act. Each NCAA Division II and III college or university that offers athletics aid is required to distribute its individual report to prospective student-athletes and prospects' parents as specified in Bylaw 13.3.1.2.

Each individual report provides information about two groups of students at the college or university identified at the top of the form: (1) *all* undergraduate students who were enrolled full-time in a program of studies for a degree, and (2) student-*athletes* who received athletics aid from the college or university upon initial enrollment. [Note: Athletics aid is a grant, scholarship, tuition waiver or other assistance from a college or university that is awarded on the basis of a student's athletics ability.]

Each individual report gives graduation information about students and student-athletes entering as full-time students for the first time in the fall of 1991. Each report provides information about student-athletes who received athletics aid in one or more of eight sports categories: football, men's basketball, baseball, men's track/cross country, men's other sports and mixed sports, women's basketball, women's track/cross country, and women's other sports. For each of those sports categories, it includes information in seven self-reported racial or ethnic groups: American Indian or Alaska Native, Asian or Pacific Islander, Black, Hispanic, White, Non-resident Alien and Other (not included in one of the other six groups or not available) and the total (all seven groups combined).

A graduation rate (percent) is based on a comparison of the number (N) of students who entered a college or university as first-time full-time students in a given year and the number of those who graduated within six years. For example, if 100 students entered, and 80 graduated within six years, the graduation rate is 80 percent. It is important to note that graduation rates are affected by a number of factors: some students may return as part-time students, some may leave school to work or travel, some may transfer to another college or university, or some may be dismissed for academic deficiencies.

Freshman-Cohort Graduation Rates.

The section at the top of each graduation-rates report provides freshman-cohort graduation rates for *all* students and for student-*athletes* who received athletics aid at the college or university.

1. Graduation-Rates Data.

1-a. *All* Students. This section provides the freshman-cohort graduation rates for all full-time degree-seeking students by race or ethnic group. It shows the rates for men who entered as freshmen in 1991-92. The same rates are provided for women. The total for 1991-92 are the rates for men and women combined.

1-b. Student-*Athletes*. This section provides the freshman-cohort graduation rates for student-athletes in each race and ethnic group who received athletics aid. Information is provided for men and women separately and for all student-athletes. For institutions that do not award athletics aid, student-athlete data are not applicable and, therefore, no numbers or percentages are reported.

1-c. Student-Athletes by Sports Category. This section provides the identified graduation rates as in 1-b for each of the eight sports categories. (The small letters indicate the value of N.) For those institutions that award athletics aid in only one sport, only those data are reflected.

2. Undergraduate-Enrollment Data. (Full-time undergraduate students enrolled fall 1996-97)

2-a. *All* Students. This section indicates the number of full-time undergraduate students enrolled for the 1996 fall term and the number of men and women in each racial or ethnic group.

2-b. Student-*Athletes*. This section identifies how many student-athletes were enrolled for the 1996 fall term and the number of men and women in each racial or ethnic group. For institutions that do not award athletics aid, student-athlete data are not applicable and, therefore, no numbers or percentages are reported.

2-c. Student-Athletes by Sports Category. This section provides the enrollment data as identified in 2-b for each of the eight sports categories. For those institutions that award athletics aid in only one sport, only those data are reflected.

Introduction to Aggregations

The following reports are summaries of the data collected from Divisions II and III institutions and contained in the IPEDS graduation-rates survey. These tables have been created to provide meaningful summaries of the graduation-rates data that Divisions II and III institutions have provided to the NCAA. The information contained provides comparisons between students and student-athletes who received athletics aid, broken down by gender and racial groups. It also provides an overall look at the different sports categories included in the reports. It is important to note that most Division III institutions do not provide athletically related financial aid, so the Division III aggregations do not include data on large numbers of student-athletes.

These reports have been divided into six categories that are groups of similar institutions. The categories are based on NCAA division (either II or III), and whether the institution is public or private. The categories are meant to reflect differences in institutional missions, and to place institutions with similar philosophies together.

The data included in these tables are sums of all data collected from institutions in a given category. In all cases, the columns labeled "N" in the following tables relate the total number of students within a reporting cell that were included in the group of institutions in question.

The first table in the series presents data for the 279 Division II institutions that submitted the IPEDS graduation-rates survey.

The next two reports detail the data for the public and private schools, respectively, that are members of Division II. The first of these reports contains data for all public institutions in the division; the second for all private institutions.

The final three tables provide similar data for all Division III institutions. Again, the first table presents data for the entire group (g=397) of Division III institutions. The final two charts divide the institutions into public and private groups as was done for the Division II data.

It is hoped that these data will provide useful information about the graduation rates at NCAA Divisions II and III institutions. It is also hoped that institutions will be able to use this information in order to compare themselves with similar institutions.
